Details

The Department of Computer Science hosted a two-day workshop on Microsoft Word, Microsoft PowerPoint, Microsoft Excel, and its Application for School level students on March 9 and 10, 2022, with the goal of introducing the various applications and use of computers. When the students registered, the concerned faculty members gave them access to the resource materials.

The respected principal of our college gave an opening address to kick off the first day of the term. Our distinguished speaker, Dr. Banshidhar Sahoo, an assistant professor of mathematics at Hiralal Bhakat College, led the second session. He emphasized the value of becoming familiar with computers and their applications. He highlighted the important notes and the process for creating methods on Microsoft Power Point during his talk. In the Science Lab, a one-hour lab experiment was conducted following this lecture. Every student completed the computer lab exercises by creating unique power point presentations.

The usage of basic functions like sum, average, product, division, max, min, and text operations as well as different ways to style the entered data were covered on Day 2 by Sk Abdul Hanif, SACT of Computer Science, Hiralal Bhakat College. He did this clearly and concisely with the aid of the dataset. Following his presentation, all of the lecture processes were carried out in the computer lab. A feedback form was distributed to the participants at the final session on Day 2. Additionally, they received their participation certificates. The concluding speech on Day 2 was deliberated by Dr. Suddhasattwa Banerjee, Coordinator, IQAC, who expressed appreciation for the faculty of both the departments of Mathematics and Computer Science for this Workshop for the benefit of the students.
